

# Product End of Life (EOL) Announcement

**Business unit: IPEmeasure**

Dear valued IPETRONIK customer,

Thank you for your continued support for the products and services of IPETRONIK.

As a manufacturer of high-quality measurement devices, our focus is set on quality and sustainability. Choosing our products you made the right decision and set a long term return on investment. This is proven by the fact that some of our customers have been working with our devices for more than 20 years successfully. Due to the discontinuation of components by our suppliers, we are also forced to cyclically check older products and, if necessary, discontinue them from the current product range.

## **Last Time Buy**

Of course we will inform you before an official product discontinuation about a LTB date. Depending on stock, certain modules are still available in limited quantities even after the discontinuation date.

## **Estimated Repair periods**

After the discontinuation we will of course repair and calibrate the devices for you according to the availability of the respective components. We also ask for your understanding that especially older devices cannot always be repaired. The calibration on discontinued products can still be carried out as long as no changes to IPE-HW-, IPE-FW-, IPE-SW are necessary.

Please contact our Sales team for any individual inquiry.

Phone **+49 7221 9922 222** e-mail [sales@ipetronik.com](mailto:sales@ipetronik.com)

## **Replacement and alternative products**

You will find a direct successor to the discontinued products in the list or compatible products with partly improved properties are available.

Don't hesitate to contact our sales team for more information.

Phone **+49 7221 9922 222** e-mail [sales@ipetronik.com](mailto:sales@ipetronik.com)

Our support team is happy to be at your disposal if you have any technical questions.

Phone **+49 7221 9922 333** e-mail [support@ipetronik.com](mailto:support@ipetronik.com)
